You can write quickly with our  
**Quick Reply!**

Are you constantly replying to a lot of e-mail messages? Answer the same questions again and again in forums? Often fill web forms? Does it take much of your time and effort? **Quick Reply** is ready to take all the work upon itself and to spare you all those tiring re-writings of similar phrases and even entire messages!

**Quick Reply** is a tool that provides you with everything you need to quickly compose e-mail messages or any other texts consisting of frequently used sentences.

**Quick Reply** has the following features:

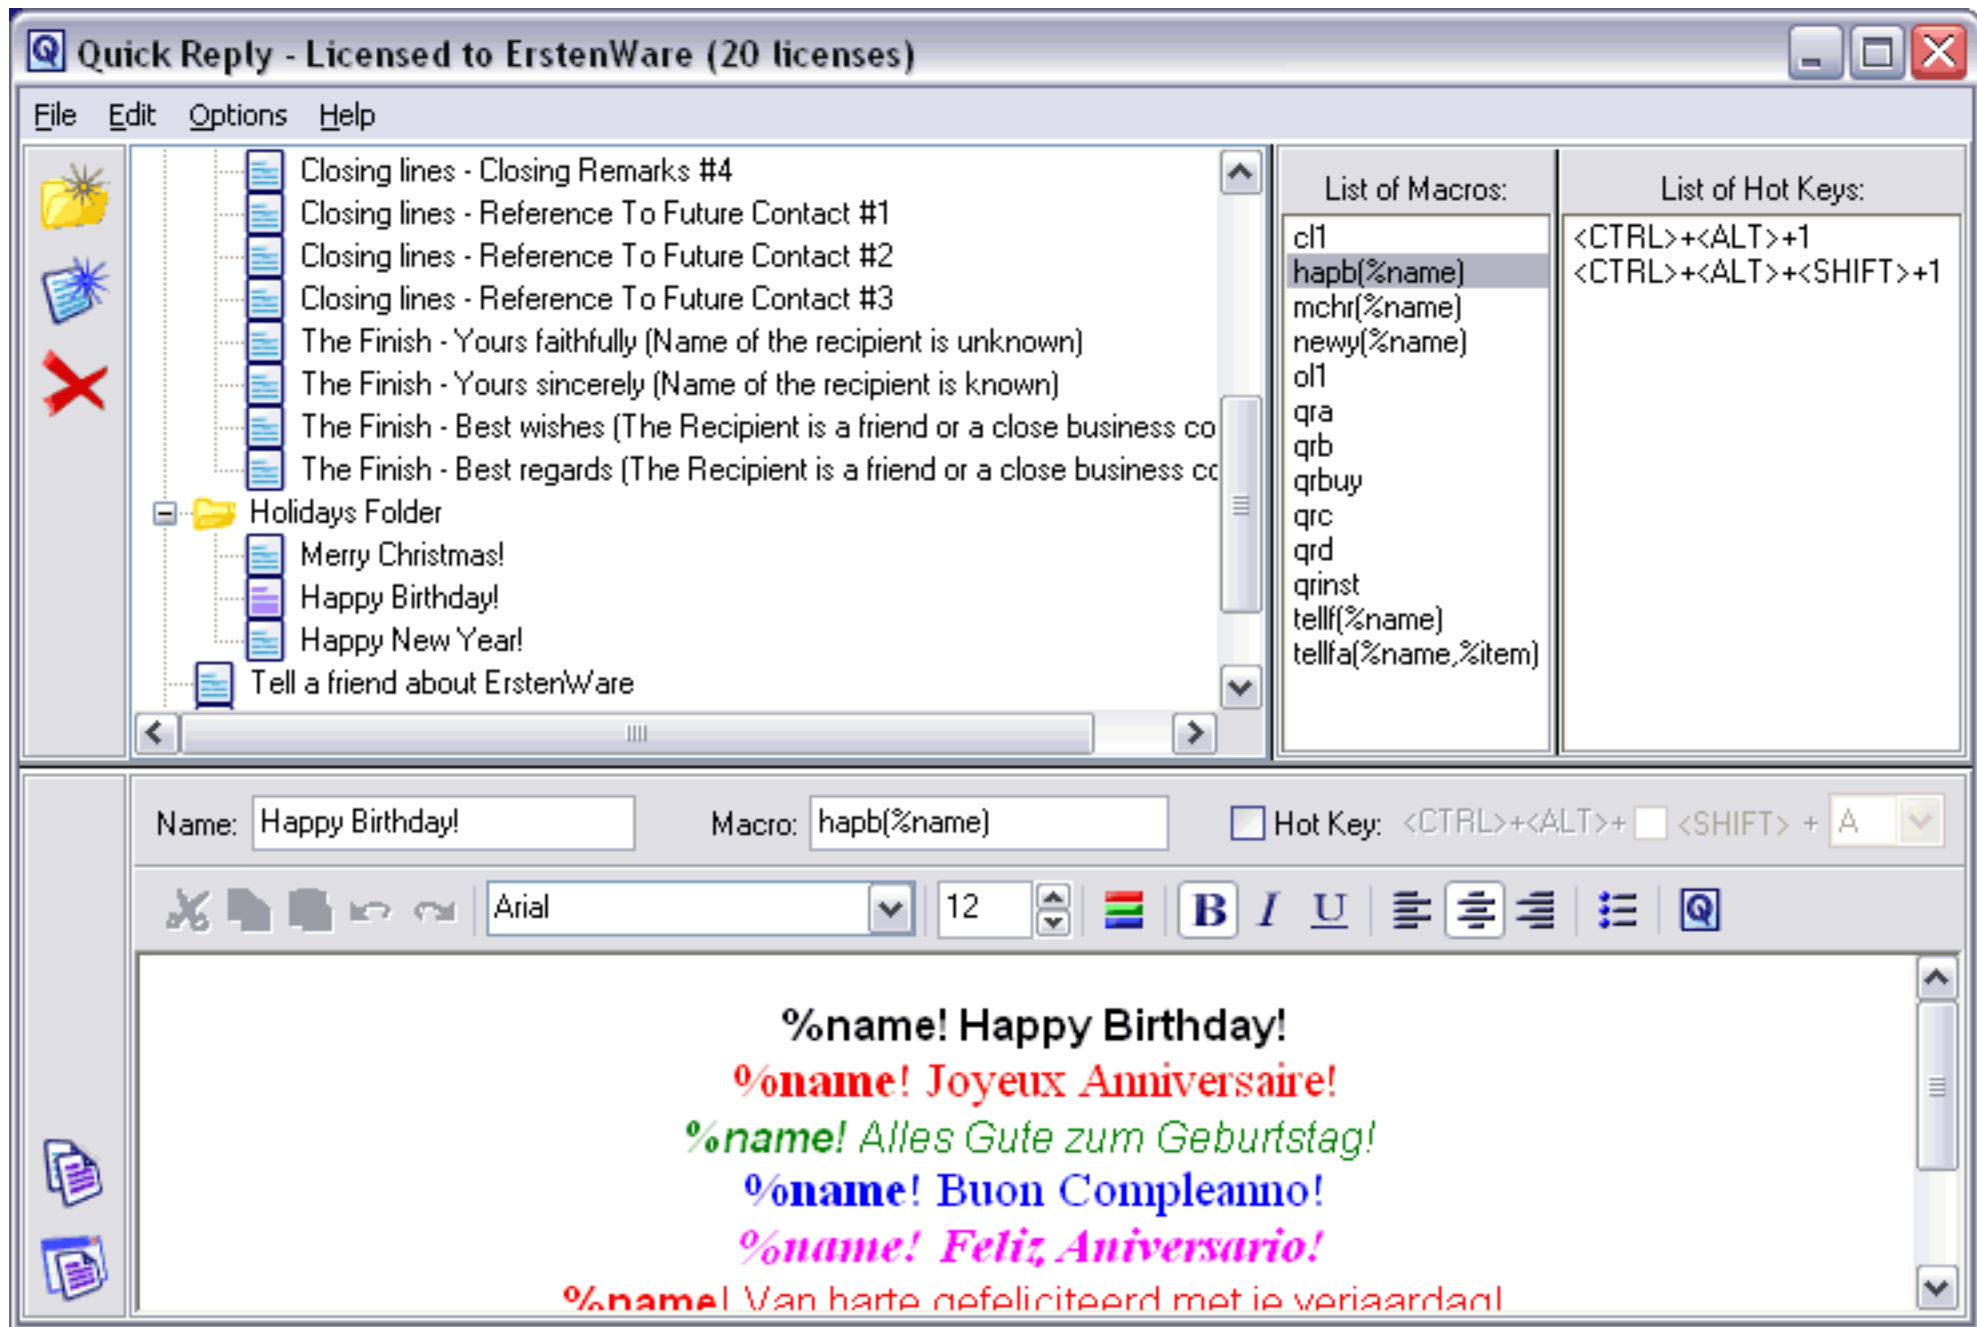

- **dramatically increases your productivity** and **saves hours of work** by liquidating all repetitious typing!
- **organizing and maintaining the friendly database** of your snippets, replies, texts, etc..
- **Drag-and-Drop** the reply **directly into any place of any window**
- **customizing replies on the fly**
- inserting replies by Hot Keys or Macro Commands **directly from any place**
- working in **full/compact/hidden** modes
- placing the reply on the Clipboard
- formatting reply content
- **Quick Reply** is compatible with any programs that can paste text content
- **Quick Reply** is compatible with Windows 95, 98, ME, NT, 2000 and XP
